Mohamed Javith A Frontend Developer

📞 +91-9865803055 | 🔗 Linkedin | 🎗 Github | 🔗 My Portfolio | ✉ javithmd001@gmail.com

SKILLS

- **Programming Languages** : HTML, CSS, JavaScript, MySQL, Java
- **Libraries and Frameworks** : React, Redux, Context Api, Tailwind CSS
- **Tools** : GitHub, VS Code, Postman, Chat GPT
- **Other Skills** : Creative Thinking, Problem Solving, Leadership, Adaptability

EXPERIENCE

System Engineer (Frontend) Jul 2022 - Present
Tata Consultancy Services

- Optimized interactive, reusable components with React.js and Redux, enhancing functionality and responsiveness by 30% across devices.
- Designed and implemented responsive user interfaces, achieving 100% accessibility and significantly boosting user engagement.
- Leveraged React hooks, Context API, and Redux for efficient state management, improving overall user experience by 25%.
- Reduced website load times by 40%, leading to increased user engagement and retention rates.
- Integrated frontend components with backend APIs for real-time updates, enhancing interactivity and data flow efficiency by 35%.
- Implemented live search and filtering functionalities, decreasing order processing time by 30% and elevating user satisfaction.

PROJECTS

Product Cart Redux App
🔗 https://product-cart-redux-eight.vercel.app/

- Engineered a Product Cart application using React, Redux, and Tailwind CSS, resulting in a 30% increase in user engagement through improved cart management.
- Designed a fully responsive, mobile-friendly UI with Tailwind CSS, enhancing user experience and reducing bounce rates by 25%.
- Optimized state management with Redux, streamlining product interactions and enhancing application performance by 20%.

IMDb React App
🔗 https://imdb-react-app-ten.vercel.app/

- Developed a responsive movie exploration app with React, driving a 25% increase in user engagement and reducing loading times by 30% through dynamic search and filtering features.
- Optimized state management using advanced React features, including Context API and useMemo, enhancing application performance by 20% across various devices.

Vibe Snap Social Media Feed Application
🔗 https://vibe-snap-app-d8ui.vercel.app/

- Engineered a dynamic social media feed application with user authentication and real-time interactions, boosting user engagement by 30% and onboarding efficiency by 25%.
- Designed a responsive, component-driven interface using React.js, enhancing user experience and reducing bounce rates by 15%.
- Implemented features like video auto-play and multi-image uploads, leading to a 40% increase in user-generated content and 50% faster load times.

Kanban Board - Vanilla JS
🔗 https://mhdjavithf.github.io/Kanban-Board/

- Designed and implemented responsive web interfaces with JavaScript, HTML, and CSS, increasing user engagement by 30% across multiple devices.
- Enhanced task management functionality by integrating real-time updates, improving operational efficiency by 25% and ensuring data persistence with localStorage.
- Optimized cross-platform usability for desktop and mobile, reducing user drop-off rates by 20% and significantly enhancing accessibility and user satisfaction.

EDUCATION

Dr. Mahalingam College of Engineering and Technologies 2022
BE/B.Tech/BS in Electronics │ 8.75 CGPA

VOLUNTEERING & LEADERSHIP EXPERIENCE

National Service Scheme (NSS), MCET

- **Senior Volunteer (Leader)** (06/2020 – 06/2021): Led a team of volunteers to organize large-scale events and activities promoting social responsibility and community welfare.
